La Tag-CHX01

La Tag-X

La Tag-X is using the newest Bluetooth Low Energy technique, attaching with our new designed Apps, and fashionable key ring gives your La Tag-X do lots of functions. La Tag-X provides more than one app to use, in order to satisfy in more circumstances. It makes your life easy and more convenience.

Bluetooth

We use CSR Bluetooth chip and use Bluetooth to connect through the Smartphone and La Tag. It can perform very well within the distance of 30ms, even though there are barriers, La Tag and Smartphone can be still connected. Once the distance is reached or over range, the signals will decreasing until it is disconnected.

The La Tag is using Bluetooth 4.0 technology.
